The school specialises in the visual and performing arts and has a strong focus on STEM subjects. The £25m new building has extended and modernised our learning environment, offering enviable facilities which are attracting students from further afield, additionally contributing to our increasing numbers as we complete our ongoing expansion from 6 to 7 forms of entry over the next few years.

Taking pride in the ambitious and vibrant nature of our multicultural mix of students, whilst continuing to serve the local population and maintain this unique character, governors are keen to see, and will support, strong leadership with clarity of direction in this constantly shifting educational landscape.
